Too hot in summer and too cold in winter?

Bright, spacious and airy, your conservatory is a great addition to your home. But as the seasons roll by, changing temperatures can make it uncomfortable to be in – too hot in summer and too cold in the winter months.

Here's the solution...

Simply call us on **0800 0385355**, email us at **sales@leekeswindows.co.uk** or visit **leekeswindows.co.uk** to make an enquiry today.

DISCOVER...

A SPACE TO ENJOY ALL YEAR ROUND

The Equinox tiled roof is the perfect solution. Combining high-quality precision engineering with attractive styling inside and out, you'll be adding valuable extra usable space to your home without the high cost of building an extension. It all goes to make the Equinox tiled roof the best value way to improve your lifestyle.

Enjoy your conservatory all year round with an Equinox tiled conservatory roof. With a tiled roof, you can use your conservatory whatever the weather – because it won't become too hot in summer or too cold in winter. Thanks to the Equinox system, you can turn your extra space into an integral part of your house, while still enjoying the added light a conservatory provides.

TRUST US TO DELIVER YOUR DREAM LIVING SPACE

We believe making improvements to your home should be easy. And you shouldn't have to break the bank to do them either. That's why we've worked tirelessly for years to produce premium-quality products that offer excellent value for money.

Our Equinox roof systems have been carefully designed to give you choice and flexibility. They've been built to the latest standards, using the best technology and come with lengthy guarantees.

Guaranteed for your peace of mind

Equinox roofs are guaranteed for up to 10 years.

Approved and compliant

Our conservatory roof systems are approved by JHAI building control and fully compliant with building regulations for England and Wales

Up to 10 years guarantee
Equinox roof systems

HOW TO ORDER YOUR BESPOKE LIVING SPACE

Buying a Equinox roof system is easy and simply:

1. Call us **0800 0385355**, email **sales@leekeswindows.co.uk** or go to **leekeswindows.co.uk** to make an enquiry
2. We'll contact you to discuss your needs
3. Our installation team will survey your home
4. We'll ask you to review your design and quote
5. We'll arrange a convenient time for installation

THE DIFFERENCE IS NIGHT & DAY

Light up your conservatory
with our soffit eaves and
downlights

The sustainable choice

When paired with the Envirotile system, our precision manufactured recycled polymer tile with excellent green credentials you can have a solid tiled roof solution with reduced environmental impact. Made in the United Kingdom with 75% recycled content, Envirotile is the sustainable choice and the lightweight composition means you can have your roof transformed in less time too.

Light up your world

The soffit eave option allows for a traditional overhang soffit appearance to match your property for a seamless integration. You can also add external downlights to enhance and highlight your conservatory. The lights can be installed as either a cool or warm white and can be specified with a twilight sensor, turning the lights on automatically as natural light fades.

CLEVER INSIDE

A FULL VENTILATED ROOF SYSTEM

Clever inside..

The innovative multi-layered roof design can transform your space and your lifestyle.

Improved ventilation

Aluminium rafters in the lightweight roof have been separated from the 18mm OSB timber deck to increase the air gap. This provides a clean flow of air through the roof system. The enhanced ventilation of our system allows the roof to breathe adequately reducing the risk of any condensation.

Pocket the energy bill savings

New high performance styrene helps boost overall roof energy efficiency and thermal insulation to keep the room below comfortable enough to use at any time of year.

The fully insulated roof design achieves U-values as low as 0.12 – roughly 10 times more efficient than an A-rated window. This exceptional thermal performance minimises heat loss – which translates into reduced energy bills.

Structural strength

The robust lightweight aluminium framework and the unique design of the interlocking panels offer superior structural strength.

Reduce noise and glare

Glass and polycarbonate roofs produce glare in direct sunlight and become noisy during rain or hail showers. Equinox dramatically reduces these issues so you can use your space undisturbed.

CHOOSE YOUR ROOF STYLE
A STYLE TO SUITE EVERY HOME

EQUINOX

SOLID TILED ROOF SOLUTIONS

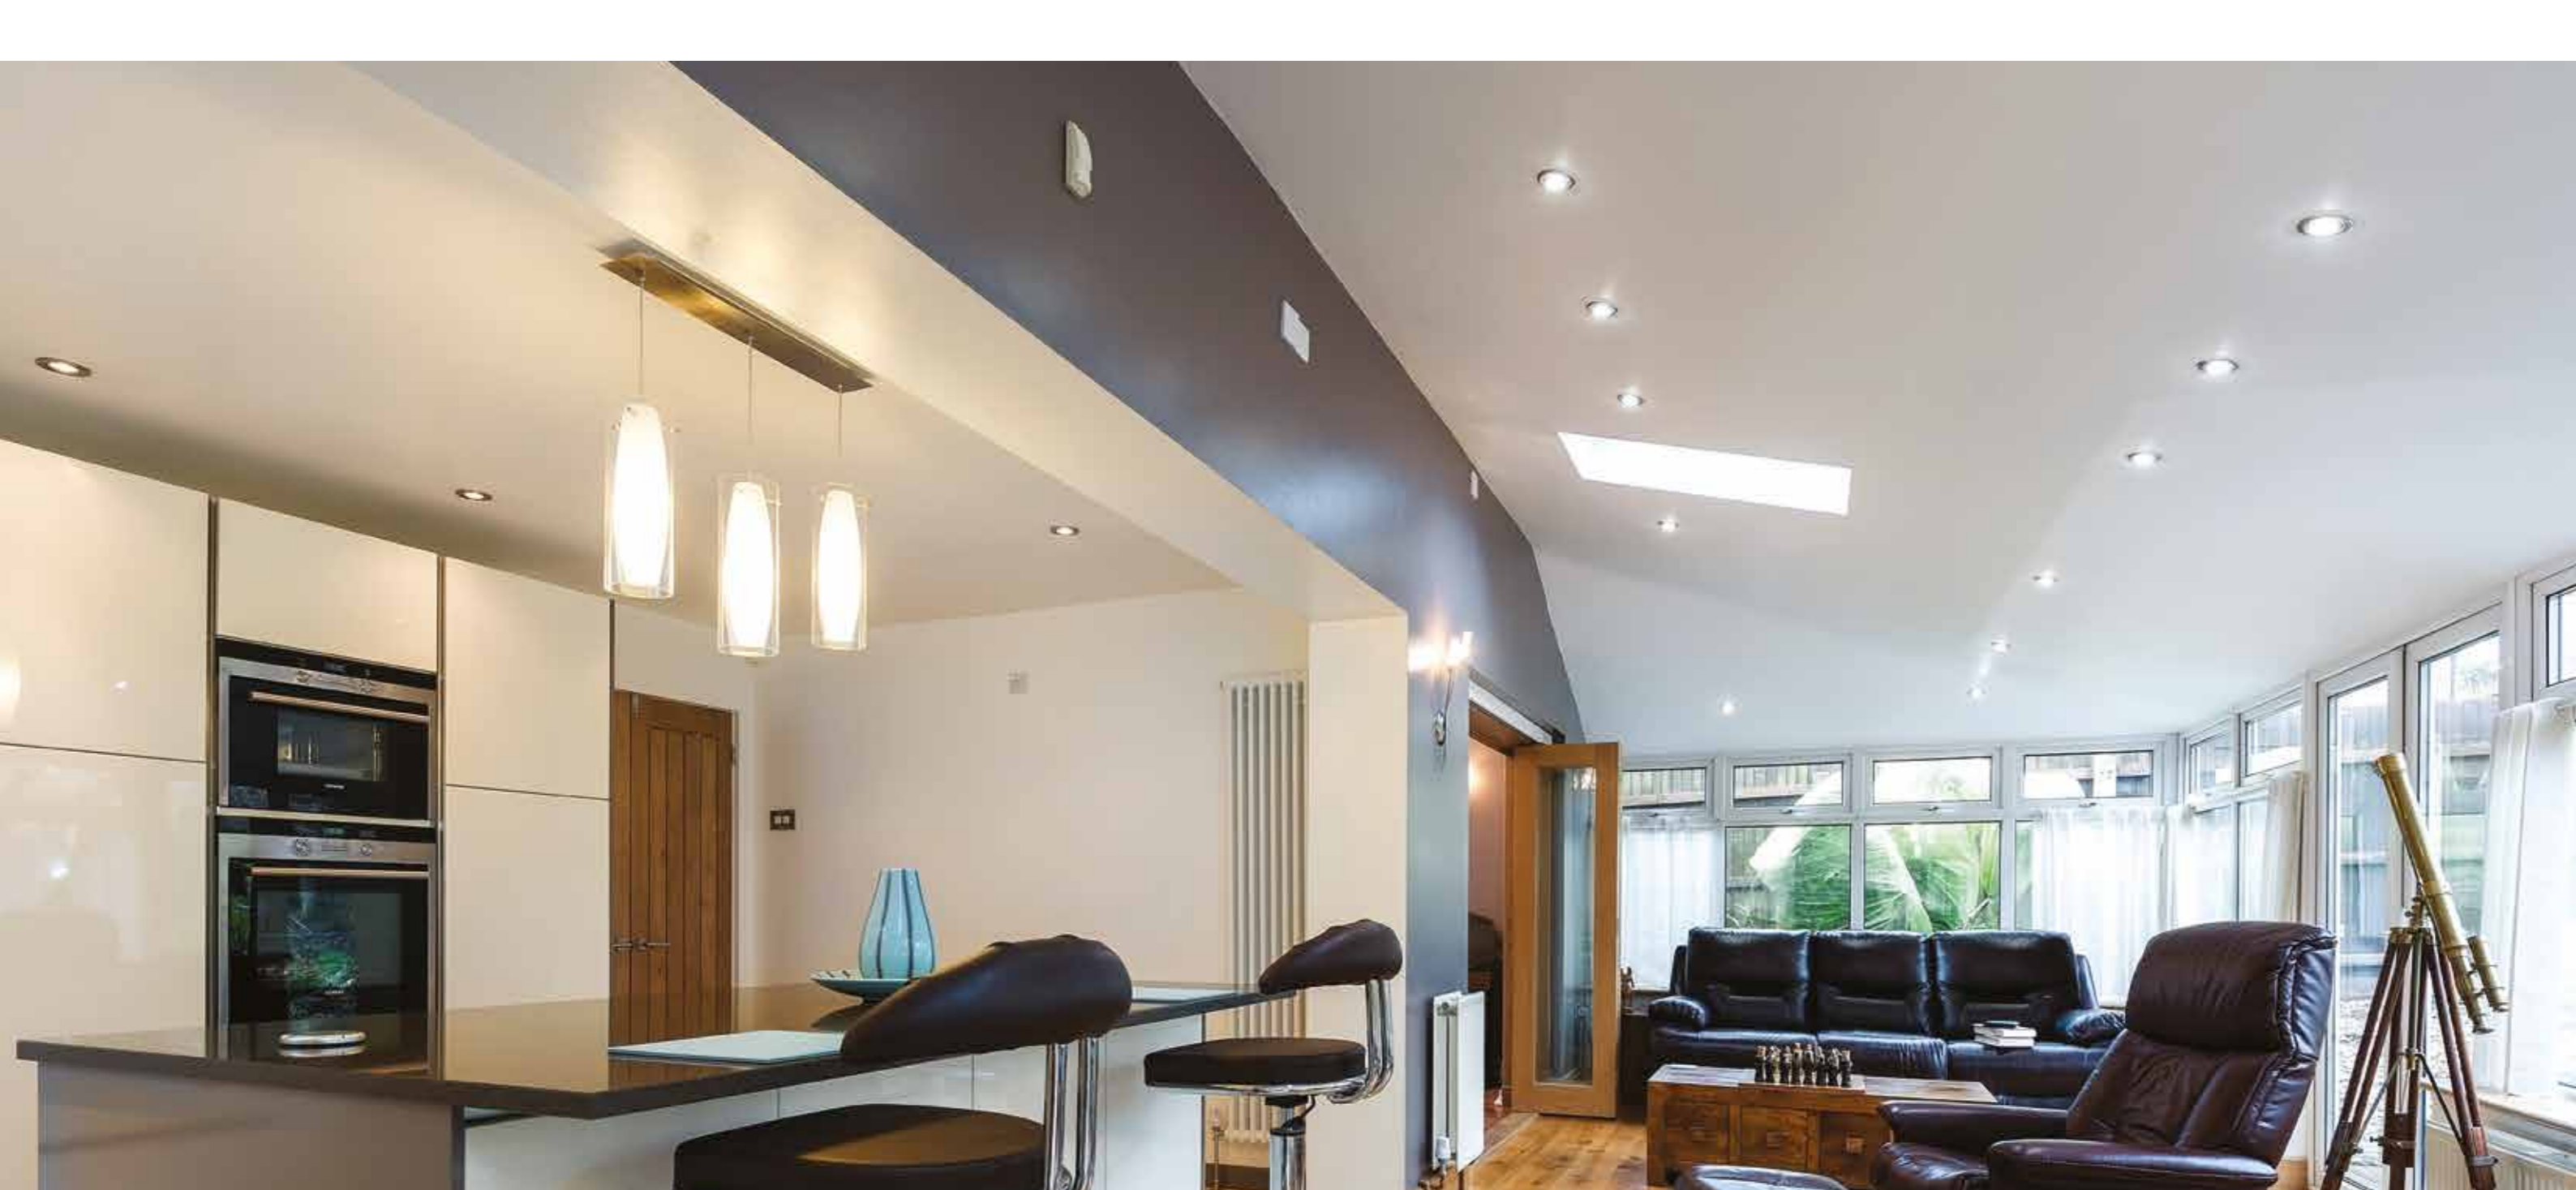

Choose our Equinox solid tiled roof with a traditional appearance plus add a standard roof windows for increased light.

EQUINOX VEGA

GLAZED SOLUTIONS

Or alternatively, our innovative Equinox Vega glazed solid tiled roof to invite the maximum amount of daylight into your new living space.

A NEW LEASE OF LIFE

The cost-effective solution for cold or hot conservatories

Equinox tiled roofs offer the inspiration to transform an under-used room into a desirable living space.

Imagine a place to relax with a drink and friends, to spend more time with the kids, or to simply kick back in – just you and the TV remote.

Whatever you want out of your conservatory – Equinox can help create your own personal sanctuary. The internal surfaces of your Equinox roof are finished with insulated plasterboard creating the look and feel of a conventional home extension.

If you want to maintain a light, bright and airy environment, then optional roof windows will flood your conservatory with natural light – without the harsh summer glare of traditional conservatories. Our premium quality roof windows are available with a choice of features – just ask your installer for more information.

LET MORE NATURAL LIGHT IN EQUINOX VEGA

Natural light is a welcome guest in any home. So, if you love the idea of a solid roof on your conservatory but don't want to restrict the light, Equinox Vega is the answer. It takes your solid tiled roof to a whole new level.

Equinox Vega is a solid tiled roof that features large, glazed areas. Allowing up to 850cm widths of natural light for brighter sunlit conservatories, giving the impression of even more space.

WHAT A TRANSFORMATION

COMPLETE INSTALLATION IN JUST DAYS

A hassle-free solution

This advanced premium-quality roof system has been designed for straightforward hassle-free installation onto your existing conservatory, so you can look forward to minimal disruption to your home life. It's the perfect replacement for a tired looking traditional conservatory roof, or to turn a new conservatory into a year-round living space in just 4-5 days.

No job is too small

Equinox isn't just a great system for conservatory roofs either. This versatile solution can also be used to transform flat roofs – whether you are building a new extension or you have an existing flat roof that's ready for a change.

In fact, no job's too small for Equinox. Even porches can benefit from a contemporary makeover.

CREATE A PERFECT SPACE

OUTSTANDING VERSATILITY FOR YOUR LIVING SPACES

Equinox tiled roof systems are compatible with all types of conservatories – whether it's a small lean-to or a large-scale P-shaped design – we can truly transform any space to suit your needs. Hipped or mono-pitch designs can easily be achieved, and the traditional aesthetics of Equinox ensures your roof will complement your conservatory and its surrounding environment – whatever you choose to use it for.

EDWARDIAN STYLE

Taking its influence from period architecture, the Edwardian offers a simple, understated style designed to blend seamlessly with the rest of your home. One of its most attractive features is a double-hipped' or sloping pitched roof with a delightful 'vaulted' effect. The Equinox Vega is the perfect solution as it features large, glazed areas.

VICTORIAN STYLE

The Victorian design conservatory is one of the most popular in the UK. And with charm and style in abundance, it's easy to see why. Inspired by period architecture, this design echoes the attractive features and with the addition of an Equinox roof will make it continue to stand the tests of time.

LEAN-TO

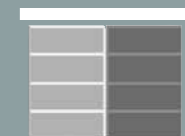

A lean-to option is a simple, fuss-free building that runs along the back of your property. With the addition of an Equinox roof you can maximise the room you have available.

P-SHAPED CONSERVATORIES
Combine two styles for more space and greater flexibility.

GABLE END

With its roots in Georgian architecture, gable end conservatory maximises floor space. The impressive front elevation with the gable end allows the glass to extend into the apex of the roof, flooding your home with natural light. You can keep that light flooding in by adding the Equinox Vega with the large glazed areas.

DESIGN YOUR EQUINOX

Solid Tiled Roof

Our Equinox solid tiled roofs are suitable for any conservatory. Making your space perfect for year-round use. Check out our range of styles, roof tiles and colours below. And if you want to add extra light into your home, why not add Vega glazing panels too.

Choose from four tile types, each with its own colour options

Why not consider replacing your existing conservatory roof with a solid tiled roof for an all year round living space.

ENVIROTILE

SLATE GREY TERRACOTTA BROWN

ANTHRACITE GREY ANTHRACITE BLACK
Slate range only Standard range only

Fully guaranteed to perform against severe weather and made from 75% recycled materials, The standard tile has a beautifully textured and contemporary finish, whilst the slate effect tile is perfect for a more traditional appearance.
